SUPERIOR offers several methods: one of which may be the most suitable means of realizing the best possible results commensurate with today's market. We offer the following:

PUBLIC AUCTION — An eminently satisfactory way of obtaining current market prices. If you wish to sell at auction, please write describing in detail your material. Normally our only charge is a 20% commission of the realized gross, and full and final settlement will be in your hands one month after sale date. If, due to value or other reasons, shipping to us is impractial, we will travel to inspect and appraise your important property.

PRIVATE TREATY — Some properties, due to their nature, sell better by private sale. With SUPERIOR'S large and active retail and mail order clientele, we are in an excellent position to bring your material to the attention of serious buyers.

Doctor Alberto Francisco Pradeau could well be the world's leading authority on Mexican coinage.

Born in Guaymas, Sonora, Mexico in 1894, he migrated to the United States at the age of 16 in 1910. It was about this time he became interested in the history of the coinage of Mexico. When visits to local libraries produced negative results he corresponded with the Mexican Government only to discover that little or no information was available. With no reference sources available, Dr. Pradeau methodically and painstakingly researched and authenticated the many Mexican coins he was slowly acquiring.

He graduated with a degree of Doctor of Dental Surgery from the University of Southern California in 1923. By this time his extensive knowledge of Mexican coinage culminated in a series of authoritative books embracing literally every phase of Mexican numismatics from Colonial times to the present. A void had been filled and Dr. Pradeau had acquired a reputation as the leading expert on Mexican coinage.

In addition to his many books he has authored over 150 articles pertaining to Mexican numismatics in various publications. He is an active and corresponding member of 24 numismatic societies in the United States, Mexico, South America, Europe and the Philippines, as well as an Academician of the Historical Academy of Mexico and of the Royal Academy of History of Spain. He has been conferred with many honors and awards. The learned Doctor is also the historian of the State of Sonora having written a number of books on the subject.

His collection represents the accumulation of over half a century, each coin having been owned, pridefully held, and diligently researched by a man who had no peers in his field.

MEXICO — REVOLUTIONARY — 1910–1917

The Revolutionary period of Mexican history was a truly glamorous and interesting era. One can surely trace the activities of popular figures, such as Villa, Huerta, Madero and Zapata through this coinage. This collection is the finest ever offered at public sale. A Suriana Dos Pesos fetched in our September '70 sale $6,100.00, which is the highest price ever paid for a Mexican silver coin. This certainly indicates the extreme interest and activity in Mexican Revolutionary coinage. There are several coins rarer than the Suriana in this section, and it may be several decades before these scarce coins are offered again. This is a once in a lifetime opportunity to acquire great rarities, and also more common coins in top condition.
