## Mexican Revolutionary Coinage 1913-1917

Superior Galleries is proud to present the following offering of Revolutionary Coinage. The consignor has put together what is undoubtedly the finest collection of these coins ever offered for public sale. The basis of this collection was the fabulous F.C.C. Boyd holding, to which was added the A.J. Ostheimer and the Frank Roza collections. In all, more than 50 years of patient effort went into the perfection of this great numismatic treasure. Most of the coins offered here were used as the plate coins in the recently published work on Mexican Revolutionary Coinages by Hugh S. Guthrie and Merrill Bothamley. The numbering system of that book is used in this offering, cross referenced to other authors. We are sure that these pedigreed coins will always be avidly sought after by "aficionada" and for that reason they represent an unequalled opportunity for investment. The above mentioned book, based on this collection, is available from Superior Galleries or your local coin dealer for \$17.50.
